

VEGETARIAN INDEX
79-7 to 80-12
1979-80 Production Season

I. Crops

Beans

1. Oxamyl Given Section 18 Clearance for use on Green Beans for Control of Specific Nematodes, 80-11 (Pesticide Update)

Broccoli

1. Broccoli, 80-9 (Harvesting and Handling)
2. Broccoli Production and Varieties, 80-9 (Commercial)
3. Effects of Seepage and Trickle Irrigation on Broccoli Yields, 80-9 (Commercial)

Cabbage

1. Early Growth Stages of Cabbage, 80-7 (Gardening)

Carrots

1. Carrot Quality and Consumption Trends, 80-8 (Harvesting and Handling)

Cauliflower

1. Blanching Cauliflower by Tying, 79-12 (Gardening)
2. Boron Deficiency in Cauliflower, 79-12 (Gardening)
3. Calcium Deficiency in Florida Cauliflower, 80-2 (Commercial)
4. Cauliflower Preliminary Variety Test Data, 79-9 (Commercial)

Celery

1. Crisis Exemption for Use of Monitor 4^B on Celery, 80-12 (Pesticide Update)

Cucumbers

1. A Cucumber Variety Trial, 80-1 (Notes of Interest)
2. Slicer Cucumber Variety Evaluation, 80-10 (Notes of Interest)

Lettuce

1. Lettuce Evaluation, 80-8 (Notes of Interest)
2. Report on Mechanical Damage and Losses to Crisphead Lettuce During Marketing, 80-10 (Harvesting and Handling)

Onions

1. Herbicide Combination for Onions Needs Label, 79-10 (Commercial)
2. Onion Guide and Variety Trial Results, 80-9 (Notes of Interest)

Peppers

1. Pepper Harvesting Characteristics, 79-9 (Harvesting and Handling)
2. Terr-o-Gas 67 Approved for Peppers, 80-9 (Pesticide Update)

Potatoes

1. Evaluation of Preemergence Herbicides for Potatoes Grown on Sandy Soil, 80-10 (Commercial)
2. New Herbicide Registration for Potatoes, 80-12 (Pesticide Update)

Squash

1. Yellow Crookneck Squash Hybrid - A Changing Picture, 79-10 (Commercial)

Strawberries

1. Mini-mulching Strawberries, 80-3 (Gardening)
2. Poor Pollination and Other Causes of Misshapen Strawberries, 79-11 (Gardening)
3. Strawberry Production in Florida - A Success Story, 79-11 (Commercial)

Sweet Corn

1. Sweet Corn Variety Trials - Zellwood, 1979, 79-9 (Notes of Interest)

Tomatoes

1. Mounding Tomatoes for Better Yields, 80-6 (Gardening)
2. Postharvest Water Intake and Decay of Tomatoes, 79-10 (Harvesting and Handling)
3. Weed Management in Tomato Row Middles, 79-10 (Commercial)

Watermelons

1. Dixielee - A New Watermelon Variety from the University of Florida, 79-7 (Commercial)
2. Watermelon - Preliminary Report on Intended Acreage for 1980 Season, 80-1 (Notes of Interest)

II. Specific Topics

Commercial Production (General)

1. Calculation for Water Application with Drip Irrigation on Vegetables, 80-11 (Commercial)
2. Clogging of Drip Irrigation Systems, 80-12 (Commercial)
3. Drip Irrigation, 80-8 (Commercial)
4. Introducing New Practices in Vegetable Production, 79-7 (Commercial)
5. Plastic Mulch Culture - Suggestions for Refinements, 80-3 (Commercial)
6. Potentials for Further Expansion of Vegetable Production in Florida with Certain Crops, 79-9 (Commercial)
7. Providing Information for Florida Vegetable Growers, 79-12 (Commercial)
8. Root Environment and Associated Problems, 79-12 (Commercial)

9. Yield Estimates and Planning a Vegetable Business, 79-7 (Commercial)

Fertilizers and Liming

1. Efficient Use of Fertilizer in Vegetable Production, 79-8 (Commercial)
2. Micronutrient Use in Vegetable Production, 80-1 (Commercial)
3. Sewage Sludge - Benefits and Hazards for Gardeners, 80-8 (Gardening)

Gardening (General)

1. Bird and Animal Pest Control in the Garden, 80-2 (Gardening)
2. Closing Out the Spring Garden, 80-7 (Gardening)
3. Economic Value of Home-Garden Vegetables in North Florida, 80-11 (Gardening)
4. Fla. Community Gardening Pilot Program, 80-9 (Notes of Interest)
5. Fluid Drilling of Pre-Germinated Seeds, 80-1 (Gardening)
6. Foiling Blight with Aluminum Foil, 80-4 (Gardening)
7. Food Gardening - An \$11 Billion "Non-Industry", 79-7 (Gardening)
8. Know Your Minor Vegetables - Nomenclature, 80-12 (Gardening)
9. Master Gardener Program, 80-11 (Gardening)
10. Master Gardening Expands, 80-9 (Notes of Interest)
11. National Junior Hort. Assoc. Convention, 80-12 (Gardening)
12. Nematode Control in the Vegetable Garden, 79-10 (Gardening)
13. 1979 National Gardening Survey, 80-10 (Gardening)
14. New Publication on Vegetable Gardening, 80-1 (Notes of Interest)
15. New Slide Set on Vegetable Gardening, 80-11 (Notes of Interest)
16. Sawdust in the Garden, 80-5 (Gardening)
17. Sewage Sludge: Benefits and Hazards for Gardeners, 80-8 (Gardening)
18. Slide Tape Sets on Vegetable Gardening, 80-5 (Gardening)
19. Vegetable Gardening Guide, Circ. 104N, 80-5 (Notes of Interest)
20. Vegetable Gardening Literature Available, 79-7 (Notes of Interest)
21. Vertical Vegetable Gardening System, 79-8 (Gardening)
22. Wide Row Gardening, 79-9 (Gardening)

Harvesting and Handling

1. Carrot Quality and Consumption Trends, 80-8 (Harvesting and Handling)
2. Dial Market News, 80-8 (Notes of Interest)
3. Ethylene in Postharvest Biology: An Overview, 80-6 (Harvesting and Handling)
4. Freezing Garden Surpluses, 80-5 (Gardening)
5. Identifying Causes of Decay on Fruits and Vegetables, 80-4 (Harvesting and Handling)
6. Improper Maturity and Ripeness as Causes of Marketing Losses, 79-12 (Harvesting and Handling)
7. Is Cooling Worth the Energy? 80-8 (Harvesting and Handling)
8. Modularization, Unitization and Palletization of Vegetable Shipping Container, 80-12 (Harvesting and Handling)
9. Nutritional Studies Underway, 80-10 (Harvesting and Handling)
10. Packaging, 80-7 (Harvesting and Handling)
11. Pepper Harvesting Characteristics, 79-9 (Harvesting and Handling)
12. Per Capita Vegetable Consumption - 1978, 79-11 (Harvesting and Handling)
13. Postharvest Water Intake and Decay of Tomatoes, 79-10 (Harvesting and Handling)
14. Precooling Vegetable Fruits, 80-3 (Harvesting and Handling)

15. Product Quality, Marketing Losses and Market Reputation, 79-11 (Harvesting and Handling)
16. Product Temperature Management, 80-2 (Harvesting and Handling)
17. Report on Mechanical Damage and Losses to Crisphead Lettuce During Marketing 80-10 (Harvesting and Handling)
18. Rough Handling as a Cause of Product Market Quality Loss, 80-1 (Harvesting and Handling)
19. Shipping Container Standardization, 80-12 (Harvesting and Handling)
20. State Fire Marshal Rules Regarding Fruit Ripening Processes, 80-11 (Harvesting and Handling)
21. The Need for County Extension Vegetables Marketing Programs, 79-10 (Harvesting and Handling)
22. Transportation Costs and Changing Patterns in Vegetable Production Marketing, 80-4 (Commercial)
23. Truck Rate Report, 80-10 (Harvesting and Handling)
24. Vegetables for the Food Service Market, 79-7 (Harvesting and Handling)
25. Water Loss Control, 80-11 (Harvesting and Handling)

Pest Control

1. Bird and Animal Pest Control in the Garden, 80-2 (Gardening)
2. Crisis Exemption for Use of Monitor 4 on Celery, 80-12 (Pesticide Update)
3. Foiling Blight with Aluminum Foil, 80-4 (Gardening)
4. Nematode Control in the Vegetable Garden, 79-10 (Gardening)
5. New Section Added to Vegetarian - Pesticide Update, 80-9 (Notes of Interest)
6. Oxamyl Given Section 18 Clearance for Use on Green Beans for Control of Specific Nematodes, 80-11 (Pesticide Update)
7. Permethrin Given Section 18 Clearance, 80-10 (Pesticide Update)

Seeds and Transplants

1. Developments in Starting Vegetable Crops-Sowing Primed Seed, 80-3 (Commercial)
2. Fluid Drilling of Pregerminated Seeds, 80-1 (Gardening)
3. Sowing of Pregerminated Seed, 80-4 (Commercial)

Soil and Land Management

1. Sandy Soils - New Potential with Full-Bed Plastic Mulch Culture, 80-5 (Commercial)

Varieties and Types

1. A Cucumber Variety Trial, 80-1 (Notes of Interest)
2. Cauliflower Preliminary Variety Test Data, 79-9 (Commercial)
3. Dixielee - A New Watermelon Variety from the University of Florida, 79-7 (Commercial)
4. Slicer Cucumber Variety Evaluation, 80-10 (Notes of Interest)
5. Sweet Corn Variety Trials - Zellwood, 1979, 79-9 (Notes of Interest)
6. Variety Trial Results, 80-9 (Notes of Interest)
7. Yellow Crookneck Squash Hybrid - A Changing Picture, 79-10 (Commercial)

Weed Control

1. Evaluation of Preemergence Herbicides for Potatoes Grown on Sandy Soil, 80-10 (Commercial)

2. Herbicide Combination for Onions Needs Label, 79-10 (Commercial)
3. Inside Florida's Worst Weeds, 79-11 (Commercial)
4. New Herbicide Registration for Potatoes, 80-12 (Pesticide Update)
5. 24 (c) State Herbicide Labels for Vegetables, 80-7 (Commercial)
6. 2 New Fact Sheets on Weed Control, 79-8 (Notes of Interest)
7. Weed Control for Full-Bed Mulched Vegetables, 80-10 (Notes of Interest)
8. Weed Management in Tomato Row Middles, 79-10 (Commercial)
9. Weed Shifts and Year-Round Weed Management, 79-8 (Commercial)
10. Weed Species Shifts and Herbicides, 79-7 (Commercial)
11. Withdrawal of TOK from U.S. Market, 80-9 (Pesticide Update)

Notes of Interest

1. Bob Kasmire "On Board", 79-9
2. Commercial Vegetable Crops Extension Planning Conference, 80-11, 80-12
3. Demonstration by County Agents, 80-12
4. Dr. Maynard Takes Over As Chairman of Vegetable Crops, 79-8
5. Florida 4-H Horticulturists Win Top Honors, 79-11
6. Index for 1978-79 Vegetarian Newsletters, 79-8
7. Jim Montelaro Ill, 80-6
8. Ken Jorgenson Wins "Grower of the Year" Award, 79-12
9. Knott's Handbook for Vegetable Growers, 80-9
10. Mailing List Update, 80-8
11. Mark Sherman Joins Veg. Crops Faculty, 80-5
12. New Faculty Member - Humphreys, 80-8
13. New Faculty Member - Lazin, 80-6
14. New Faculty Members - Stall and Stoffela, 80-7
15. New Southern Region, NJHA Director, 80-7
16. Ray William Final Salute, 79-12
17. Research Reports From Sanford, 79-12
18. Susan Gray Added to Vegetarian Contributors 80-11
19. Visiting Professor to Help With "Master Gardening", 79-11
20. William Moves West to Oregon, 79-9
